Perida, a maker of deluxe sofas and chairs, introduces the Move, its very own answer to the trend of adjustable sofas. The Move's stylish, modern design adds a surprising dimension to the concept of relaxation. Thanks to the intelligent location of the pivoting points, you can easily transform a timeless sofa into a roomy chaise longue. You can sit, hang about, lie, lounge, and much, much more on the Move. It also comes with handy accessories such as a laptop table with cup holder and armrests which can be attached anywhere, so you can modify the Move according to your needs. The backrests can even be detached to create a 1x2-metre divan. Just grab the Night Quilt and you are sure to get a good night's rest. All of the upholstery is removable and can easily be changed.

The Move is available in leather (not removable), fabric or Alcantara[®] and with the collapsible armrest either on the left or the right. Also in different dimensions like 110x220 or 120x240
